

Valora

For Advisors & Investment Managers

The Problem

- Clients expect institutional-quality analysis — building it from scratch takes time you don't have
- Cross-border mandates require different tax, benchmark and currency treatment in every market
- Producing comparable appraisals across multiple assets is slow and inconsistent
- Presenting live sensitivity analysis in client meetings is not possible with static spreadsheets

What Valora Does

Valora gives advisors and investment managers a single platform to appraise, compare and present deals across any asset class, currency or market — with institutional rigour and in a fraction of the time.

Key Features for You

- Multi-Currency** — 25 currencies, all major rate benchmarks — model any cross-border mandate
- Scenario Comparison** — Run base, upside and downside scenarios and compare side by side
- Sensitivity Matrix** — Live stress testing on exit yield, rent, ADR, cap rate — any variable
- AI Market Comps** — Real-time comparable data for any location — no manual research required
- Shareable Reports** — Institutional investment memorandum in one click — PDF or share link
- AI Sense Check** — Independent challenge on every assumption — jurisdiction and market aware
- Tax & Levy Handling** — VAT, IVA, SDLT, CIL, Section 106 — correct treatment for every market

What You Can Model

Use Case	What Valora Delivers
Buy-side advisory	Full appraisal + sensitivity + AI comps in minutes per deal
Sell-side preparation	Institutional memorandum ready for data room
Portfolio analysis	Consistent appraisals across multiple assets and markets
Cross-border mandates	25 currencies · correct tax treatment · local benchmarks
Lender / investor reports	DSCR · IRR · equity waterfall · shareable link
Live client presentations	Sensitivity matrix updates in real time as assumptions change
