

Valora

For Hotel Investors & Operators

The Problem

- Hotel underwriting requires specialist metrics most platforms don't handle — ADR, RevPAR, GOP margin, NOI capitalisation
- Acquisition vs repositioning vs ground-up have fundamentally different cashflow structures
- IVA, MWST and other hotel-specific tax treatments are frequently modelled incorrectly
- Getting from operating data to an institutional investment memorandum takes days

What Valora Does

Valora has a dedicated Hotel model — Simple for stabilised acquisitions and Advanced for year-by-year hold modelling. Both produce institutional-grade output with live ADR comps, NOI normalisation and full debt structuring.

Covers acquisitions, repositioning deals, ground-up development and operator transitions across all star categories and markets.

Key Features for You

Actual vs Normalised NOI — Input real operating NOI directly — model shows the valuation gap vs institutional benchmarks

ADR Market Comps — AI-powered live ADR benchmarks for any location — flags if your assumption is above or below market

Year-by-Year Hold — Hotel Advanced models every year of the hold — Revenue, EBITDA, FF&E;, NOI, exit

DSCR / ICR — Automatic from NOI vs debt service — covenant compliance at a glance

Debt Yield + LTV at Exit — Lender metrics built in — present to your financing bank directly from the platform

IM & Costs — Investment manager waterfall — three-tier hurdle/promote, acquisition fee, annual base fee

Split IVA / VAT — Hard costs vs soft costs, recoverable toggle — correct for Italy, Portugal, Spain, UK and all EU markets

What You Can Model

Metric	Simple Hotel	Advanced Hotel
Revenue Streams	Rooms + F&B + Spa + Gym + Meetings	Year-by-year per stream
NOI Mode	Normalised or Actual NOI input	Normalised or Actual NOI input
Hold Period	Programme + stabilisation	Configurable year-by-year
Exit Valuation	NOI ÷ exit cap rate	Stabilised NOI ÷ exit cap rate
DSCR / Debt Yield	✓ Automatic	✓ Automatic

IM Waterfall	—	✓ Three-tier hurdle / promote
Cashflow Export	Excel summary	Full year-by-year cashflow

Platform Coverage
